POSTUM-BERYLLIUM SOURCE, PB-116

REFER TO  
SYMBOL: EP:RCA

RHTG # 34,104  
BOX # 1820

Attention: E. A. Walker.

The Argonne National Laboratory has indicated a need for a one case mixed postum-beryllium source for use by the Instrument Research Group at that installation. The standard type container and mixture ratio similar to that used in sources previously prepared for Argonne will be satisfactory.

It is therefore requested that the above described source be prepared as soon as practicable without interrupting normal production operations.

Containers and all pertinent papers should be marked C-360 for identification and addressed to:

U. S. Atomic Energy Commission  
Office of Chicago Directed Operations  
1718 W. Pershing Road, Warehouse No. 9  
Chicago, Illinois

Attention: Research Service Division

Code number PB-116 has been assigned to this source for future identification.
